### BRIEF PROFILE

Robinvale Wines is a family owned producer of Quality Wines and Non-Alcoholic Beverages, Mr and Mrs George Caracatsanoudis, sons Steve, Bill and Families, operate a modern winery along with 30 hectares of Bio-Dynamic vineyards at Robinvale, 470km north-west of Melbourne, on the Murray river.

“Our Winery is fully equipped and includes bottling facilities and cellar door sales. We also have a mail order service Australia wide. The estate is registered with the Bio-Dynamic Research Institute of Australia. Products which meet the high standards of this organization are entitled to carry the international Demeter trademark, indicating that they are certified and produced according to these standards.

The increasing public awareness of the harmful effects of pesticides, weedicides and chemical contaminants is a major factor in the marketing policies of Robinvale Wines. As a family we are personally committed to the principles of Bio-Dynamics. Being an advanced form of organic production, it means not only are our vineyards environmentally friendly and ecologically safe, our produce is cleaner, greener and more pure.”

Situated 5 Kilometres  
South of Robinvale on the  
Sea Lake Road.
